

# ROGGE CLOOF

## De Rogge Cloof Pinot Noir 2024

Fair Karoo  
FOUNDATION

The Sutherland-Karoo region is different and unique in many aspects. Situated between 1300 to 1700m above sea level and 250km from the ocean, makes it the highest and coldest wine region in South Africa – in other words a high-altitude, low temperature region.

In 2004 the first vines in the Sutherland-Karoo were planted on the sheep farm Kanolfontein at an altitude of around 1340m and in 2018 we expanded our vineyards by planting on Rogge Cloof at an altitude of around 1515m.

Characteristic of this terroir is the Mediterranean microclimate, with its low humidity, dry winds, clear skies and high light intensity. The clay soils are mineral rich because of the last active volcano Salpeterkop also known as De Oude Sneekop which lies on the perimeters of Rogge Cloof.

We aim to use minimum chemicals, without greatly compromising yields. Due to the cold, the growing season in the Sutherland-Karoo is later and shorter than for example Stellenbosch. The harvest is also normally 2 weeks later than Stellenbosch.

Varietal:	100% Pinot Noir
Clone:	PN113B
Rootstock:	R99
Fruit source:	De Rogge Cloof
Yield:	0.5 tons/hectare
°B at harvest:	21°
Alcohol:	12.5%
Total Acid:	5.6
Residual sugar:	1.5
Age of vines:	6 years at harvest
Trellis:	5-Wire VSP
Irrigation:	Supplemental drip irrigation
Vineyard elevation:	1515-1518m
Slope:	South West to North East
Viticulturist:	Rosa Kruger
Winemaker:	Johan Kruger
Vineyard Manager:	Ulli Gertholtz

### Tasting notes:

This first vintage rewards with subtly fragrant red berries, supple tannins, refined freshness & modest alcohol. Seamless and graceful, one to watch as the block matures.

Total Production: 420 Bottles
